Planning Associate Yolanda Gomez introduced the item to the City Council using slides outlining project location, background, appeal overview, site plan, 3D aerial view, elevations and recommendations.

The appellant stated that his main goal was reasonable privacy modification involving the new second floor that can see his property. He stated that he respects the Planning Commission's judgment but that the hillside findings don't ask about the impact and its substantial nature. He continued that he wants the clear portion of the east second floor windows to start 5.5 feet above finished floor and with some obscuring window paneling. He stated that this would not prevent Mr. Grablowski from getting his wanted additions. He added that there were compromises that both parties could make.

The proponent, represented by Mr. Negi Bakum, explained that the lot was unusually shaped and they tried to mitigate where possible. There were tall buildings around that look around and through their building. He added that they worked with neighbors to minimize and not create anything significant. He stated that the privacy issue was not significant due to the long distance and even with Hillside Overlay would not consider this a privacy issue. He continued that his client got many support letters and that they did a lot of flagging.

Mr. Grablowski commented that for reasons that his family has grown that he requires more space. He continued that he discussed with neighbors and made sure to get approval from each. He explained that the garage was because he has 4 kids and the street parking is gone. He stated that he has made modifications to the project in order to accommodate. He stated that the privacy issue is due to him having an ADU in the front/side-yard. He enumerated the ways his family have been good neighbors and that they have worked hard to be accommodating.

No members of the public spoke.

The appellant Mr. Nostowski denied ignoring Mr. Grablowski's calls to work with him, and that Mr. Bakum was also his architect. He stated that the neighbors should be working with each other in the HOO. He reiterated that he needed one minor compromise.

Councilmember Lieu stated that a property should be able to avoid restrictions of the HOO while also invoking its protections. She agreed that both the ADU and SB9 were not subject to the HOO subjective development standards. She continued that the appellant's original home would have minimal impacts and she would deny the appeal.

MOTION: Councilmember Gerson moved to close the public hearing. Councilmember Sheikh seconded the motion. The motion carried by a vote of 6-0 with Councilmember Kartsonis recused.

Mayor Kalani disclosed she visited the site and walked the area.

Councilmember Barnett and Councilmember Sheikh disclosed they visited the site.

The appellant, Jillen Danis, requested that a small portion of the project be modified to protect the privacy of her home. She stated that the master bedroom view window and the balcony addition and sliding glass doors were the largest concerns. She stated that she was concerned about the size and proximity of the master bedroom window. She continued that the project already has views from a balcony and that this was excessive given the privacy concerns. She overviewed the various negative factors causing privacy loss such as the glass door, and that her home was now in view of the balcony.

William Beverly, speaking in support of Ms. Danis, stated that the staff report had misrepresentations such as the description of the deck. They argued that the addition of the railing is making the once unusable deck accessible, which does create a new vantage point. They also argued that the code is not clear and that regardless of that clarity, the project does pose a greater than minor impact.

Members of the public were allowed to speak at this time.

Michael Forbes stated that the privacy would be greatly impacted negatively from the project.

Todd Van Der Plein stated that there was an abuse of the codes and that he hopes that there is an approval.

Mr. Beverly stated that the good things they were doing were not credit against things they should not be doing. He requested the Council uphold the appeal and deny the project. Ms. Davis stated that no one came to her house to look at the vantage points.

Councilmember Lieu recounted a resident that found the project would adversely impact her property, and that the HOO was designed to protect its residents from negative impacts. She continued that if the project goes through, that the applicant fulfill the promise to cut down the trees. She added that she disagreed with staff findings, and that the appellant's privacy would be violated under the HOO. She stated she would vote yes on the appeal.

The City Council went to recess at 8:41 p.m. The City Council returned from recess at 9:02 p.m.

Councilmember Gerson and the applicant overviewed the pictures. She stated that she gathered all possible issues and fixed them in collaboration with neighbors. In response to Councilmember Gerson, the applicant stated that the current height 25.8 feet for proposed and the west end was 24.8 feet. The applicant explained the reasoning for the theme and other factors to help neighbors with their requests. Low roof and views were the most important factors for her team.

Councilmember Sheikh and the applicant discussed the modifications that were made. Councilmember Sheikh suggested to reduce by one foot, and the applicant responded that they were willing to be flexible.

Mayor Kalani and Ms. Davis discussed the views that are causing privacy concerns. Mayor Kalani and Planning Assistant Vazquez overviewed the site visit that verified the silhouette locations and certification. Mayor Kalani stated she did not see a significant different in existing roof height from the silhouettes.

Councilmember Lieu and the applicant discussed the removal of the trees. He stated that cutting the trees was something the community had been wanting and they were obstructing views.

MOTION: Councilmember Sheikh moved to close the public hearing. Councilmember Lewis seconded the motion. The motion carried by a vote of 6-1 with Councilmember Kartsonis recused.
